

# GRAMPIAN RINGING GROUP WHOOSH NETS FOR SALE

Small mesh whoosh nets (20x20mm) suitable for small finches and buntings are available from Grampian Ringing Group. Two weights of netting are available -210/3 & 210/6. Each net comes complete with elastics and detailed instructions. Nets are available in the following sizes:

**210/3** Lightweight netting dyed green/dark green. The advantage of this lightweight netting is that it fires incredibly quickly, but greater care needs to be taken to avoid snags causing the net to rip.

**4x2m £60**

**6x3m £75**

**210/6** Heavier weight, more robust and comes in a dark maroon colour.

**4x2.5m £65**

**5x2.7m £70**

A small number of whoosh net poles will be available from Raymond Duncan at the Scottish Ringers Conference. 20mm steel conduit is ideal and needs to be cut so that the threaded end is not at the top of the pole (otherwise the net will get stuck).

Just some of the species caught in GRG whoosh nets!
